

SUPER CUT VAL

Vacuum board lifter
for gypsum plasterboards

Vacuum board lifter

- loading capacity: standard 65 kg*
- 4-fold suction pads
- operation handle length: 750 mm
- main voltage: 400V
- air flow (50 Hz): 260m³/h
- nominal power: 4 kW
- sound pressure level: 74 dB
- electric design acc. to VDE, UL und CSA

* Higher payloads (85 kg or 110 kg) and further boom lengths optionally available on request.

Advantages:

- board lifter for ergonomic handling
- safe + damage free gripping with vacuum (4-fold suction pad)
- intuitive one-hand control

Aluminium Jib Crane

- height lower edge crane jib: 3000 mm
- jib length: 4.000 mm*
- swivel range: 270°
- overall height crane system: 3.525 mm
- total weight: approx. 350 kg
- max. torque: 5,9 kNm
- max. vertical force: 2,7 kN
